

Flex PXE 80 10.8-EC/2.5 Set

The Flex PXE 80 is the ideal complementary device for every vehicle refurbisher, painter and the spot repair sector. Flexible and easy as never before from flower sanding to hologram-free finishing with one unit. It is ideally suited for rotary and eccentric free-running work with 3 and 12 mm strokes. It has an innovative, tool-free quick-change system for exchanging the rotary and eccentric drive types. The Flex PXE 80 is equipped with a damped special Velcro pad for polishing and grinding. The ergonomic and flexible grip options thanks to the optimally placed SoftGrip surfaces allow the device to fit perfectly in the hand.

page 1 of 1

Other advantages:

- Throttle switch for a slow and sensitive start and lock for continuous running.
- High running smoothness due to vibration optimization
- With impact protection ring to protect surfaces
- Brushless motor with higher efficiency and longer service life
- Electronic Management System (EMS) protects the machine, extends service life and increases efficiency
- LED battery capacity indicator
- FLEX battery system: operation with all 10.8 V battery packs

Recommendations for use

The polishing machine is designed

- for use in vehicle preparation, paint shops, industry and crafts,
- for all kinds of polishing work with polishing sponges or lambskin pads.
- For sanding work with Velcro sandpaper,
- For use with tools that may be operated at a speed of at least 5800 1/min.
