

Fusion Pro

Multi-product chemical dispenser

Professional dilution system for easy and safe dispensing of up to five products. The large push button allows for easy activation with optional lock-on for bucket filling and is available in six colors: black, blue, green, red, white, and yellow. The customizable label display area allows to prominently see which products are used. The dispenser consists of a hard-wearing outer shell and pilot-activated water valve with simple valve diaphragm access and fewer components than competing brands. Thus, service and maintenance issues are far less frequent. Great versatility of water connection types. A metering tip kit is included. The set includes: Fusion Connector, Water Supply Hoses, Chemical Storage Racks, Metering Tip Kit, Ultra-Lean Metering Tip Kit, Pressure Relief Tee, Faucet Adapter Kits, Water Diverter Valve

Areas of use

Wall dispensing system in detail shops, car dealerships, janitorial closet

Recommendations for use

The correct dilution is set by means of a set of colored measuring tips. 15 different dilutions can be set between 102:1 to 3.6:1 for 1 GPM or 427:1 to 8:0 for 4 GPM. Chemical induction rates are based on water thin products (1 CPS). Induction rates may vary. Field tests are recommended.
