

Micro Cut Hard Foam Pad

page 1 of 1

High-quality special sponge for removing fine scratches, holograms and polishing marks using the Micro Cut and Micro Cut & Finish. The short height of 25mm creates low torsion forces, very good handling and the highest level of stability. The special density of the foam material enables long-lasting compression hardness during polishing. The optimised reticulation (open cellular structure) and cell count contribute to a high-shine finish and very good hygiene factors. The milling edge ensures extra flexibility for the pads, enabling them to fit around contours easier. The colourful non-woven material, suitable for polishing, ensures process safety. Optimization of compression hardness and cell structure for high-solid paints.

Container

Container	Item no.
Ø 76 x 25 mm	9998319
Ø 126 x 25 mm	9998320
Ø 150 x 25 mm	9998321
5x Ø 45 x 25 mm	9998327
