

Spray Extractor

The Spray Extractor from Sprintus is equipped with a 2.5 m combination hose, a 105 mm upholstery nozzle and a 7.5 m power cable for a large operating radius. The 4 bar spray pressure and 230mbar vacuum pressure can be switched separately. The fill level in the separate fresh and dirty water tank, each with 6.5 l, can be easily checked through the transparent lid. Particularly easy handling due to rubberized castors and rear wheels, as well as a lever on the handle for ergonomic spraying of cleaning agents. A separate, integrated defoaming tank enables the use of defoaming agents. With Schuko plug.
